Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

Needs and Uses: This notice and request for comments seeks to establish a new information collection as it pertains to the Advanced Methods to Target and Eliminate Unlawful Robocalls Sixth Report and Order and Call Authentication Trust Anchor Fifth Report and Order (“Gateway Provider Report and Order”). Unwanted and illegal robocalls have long been the Federal Communication Commission’s (“Commission”) top source of consumer complaints and one of the Commission’s top consumer protection priorities. Foreign-originated robocalls represent a significant portion of illegal robocalls, and gateway providers serve as a critical choke-point for reducing the number of illegal robocalls received by American consumers. In the *Gateway Provider Report and Order*, the Commission took steps to prevent these foreign-originated illegal robocalls from reaching consumers and to help track these calls back to the source. Along with further extension of the Commission’s caller ID authentication requirements and Robocall Mitigation Database filing requirements, the Commission adopted several robocall mitigation requirements, including a requirement for gateway providers to respond to traceback within 24

hours, mandatory blocking requirements, a “know your upstream provider” requirement, and a general mitigation requirement.

Gateway Provider Report and Order, FCC 22-37, paras. 87-91, 47 CFR 64.1200(o).

A provider that serves as a gateway provider for particular calls must, with respect to those calls, block any calls purporting to originate from a number on a reasonable do-not-originate list. A list so limited in scope that it leaves out obvious numbers that could be included with little effort may be deemed unreasonable. The do-not-originate list may include only

(i) Numbers for which the subscriber to which the number is assigned has requested that calls purporting to originate from that number be blocked because the number is used for inbound calls only;

(ii) North American Numbering Plan numbers that are not valid;

(iii) Valid North American Numbering Plan Numbers that are not allocated to a provider by the North American Numbering Plan Administrator; and

(iv) Valid North American Numbering Plan numbers that are allocated to a provider by the North American Numbering Plan Administrator, but are unused, so long as the provider blocking the calls is the allocatee of the number and confirms that the number is unused or has obtained verification from the allocatee that the number is unused at the time of blocking.

The new information collection for which OMB approval is sought comes from the requirement in the Gateway Provider Report and Order that all gateway providers must block calls using a reasonable DNO list. The categories of numbers that may be included on the reasonable DNO list are the same categories of numbers for which the Commission first authorized blocking in 2017. There is no valid reason for a caller to originate a call from these numbers calls purporting to originate from these numbers are highly likely to be illegal.
